The new HINO 700
Designed to keep you trucking

No matter how long and hard the road ahead is, you can rest assured that the HINO 700 Series, with proven technology and reliability beyond question, will be with you every step of the way.

Automated Manual Transmission
The 16-speed ZF ASTRONIC transmission takes the guess work out of driving an extra heavy vehicle. The transmission will select and shift gears in the full automatic mode and ensure that your vehicle maintains "Green-Band" driving at all times. In semi-automatic mode, manual gear select can be done to enhance operating efficiency. The vehicle remains fully protected against driver abuse in both operation modes.

Fuel Tank
The HINO 700 Series model range is fitted with durable steel fuel tanks to provide enough fuel capacity to enable long-range driving.

Tipper, Freight Carrier and Mixer - 330 litres, 4x2 - 390 litres, 6x4 - 390 and 450 litres.

Rear Axle Differential Lock
The new Hino 700 Series now includes additional differential locks on the first rear axle thus preventing unwanted wheel spin. The entire system now consists of locks on both rear axle one and two as well as an inter differential lock. Driving forces is therefore suitably directed, freeing your vehicle from an otherwise unmanageable situation.

ABS
ABS is standard on the 700 Series with an automatic slack adjustment system, preventing extra downtime and saving you added costs.

Rear Suspension
A new multi-leaf suspension which includes double acting shock absorbers and a standard stabiliser is now available on the new 700 Series construction vehicles. This provides the driver with improved ride comfort and handling stability.

Fuel Tank

WHATEVER THE JOB, THERE’S A HINO 700

THE HINO 700 MODEL RANGE

**TRUCK TRACTORS 4x2**
The 2038 4x2 Truck Tractors makes for the perfect high volume, low payload mover. Ideal for furniture removals and other van body applications. With a 380hp engine and a GCM of 45 500 kgs this truck makes for the perfect medium to long haul partner.

**TRUCK TRACTORS 6x4**
The 2841, 2845 and 2848 6x4 Truck Tractors are the ultimate medium and long haul trucks. With GCM capacity of 60 000 kgs, engine power from 410hp to 480hp, double and single sleeper cab, steel and air suspension options and a multitude of features you are sure to find the perfect partner for your business.

**TIPPERS**
The 2838 6x4 and 2841 8x4 Tippers are ideally suited as 10m³ and 12m³ tippers respectively, which is perfect for the short and medium haul tipper operation.

**FREIGHT CARRIERS**
The 3541 8x4 and the 2841 6x4 Freight Carriers are suited for medium to long operations with a GCM capacity of 56 000 kgs.

**MIXER**
The 8m³ 3541 8x4 Mixer provides sufficient carrying capacity for short to medium operations with a GCM capacity of 56 000 kgs.
SAFE AND COMFORTABLE

Safety is an important element in the design of the cab which is why the new Hino 700 Series now includes an SRS airbag* with other safety features such as a shock absorbing and collapsible steering column, and side impact door beams that protect the driver/passengers in the event of a collision.

The Hino 700 is made comfortable with features like air suspension, fully adjustable driver’s seat, a tilt and telescopic steering column and easy to reach controls. Driver fatigue is reduced with features such as “no clutch” operation and ergonomic seats.

*Available on the driver’s side.

SINGLE AND DOUBLE SLEEPER CABS

The cabs of the Hino 700 Series are spacious and comfortable to ease the strain of long distance driving. Double sleeper models are available so that your driver can arrive well rested and on time.
